

## Duff McKagan Founding Member of Guns N' Roses and Velvet Revolver Goes nuTsie

SEATTLE--([BUSINESS WIRE](#))--[nuTsie.com](#) today announced that [Duff McKagan](#), founding member of legendary rock bands Guns N' Roses and [Velvet Revolver](#), has joined the company's advisory board. McKagan has taken an active role in managing the affairs of his bands and will bring 25+ years of music business experience to the dynamic, Seattle-based digital music company.

"First and foremost, I'm a music fan and a musician," said McKagan. "And nuTsie is all about the music. Getting your own music anywhere, anytime. Finding new songs that you like, which is a rush for me even after all these years of listening to and playing music."

"I've seen a lot go down over the years with G N' R and now Velvet Revolver," added McKagan. "Working with nuTsie is a great opportunity to put my experience to work for one of the most viable new digital music models. This is also a chance for me personally to get more active in the business world, which is one of my long-term personal goals."

McKagan's addition bolsters nuTsie's already considerable credibility as a digital music company with real connections to music. The company previously announced the addition of Dave Dederer, of the Grammy-nominated and platinum-selling band The Presidents of the United States of America, to its advisory board and then to its executive staff.

nuTsie is a synchronized web and mobile music service that allows anyone to upload and listen to their iTunes music in hi-fi quality on any web-connected PC, mobile phone or [BlackBerry](#)® smartphone, as well as explore other users' playlists and share music with friends.

nuTsie is also available on [Facebook](#) with [an application](#) that allows users to play, share and explore the music that matters most to them – full tracks from their iTunes libraries and their friends' iTunes libraries.

nuTsie parent company Melodeo Inc. reaches more than 50 million consumers online and through deals with Alltel, SunCom, T-Mobile, Research in Motion, Danger, Motorola, Rogers Wireless Canada, 3UK and 3Ireland, China Unicom, Sony/BMG and Warner Music Group in China, TDC, Korean Telecom Freetel and M1 in Singapore.
